Scrum Foundation Professional	CertiProf

WORK EXPERIENCE

SOA Analyst - FullTime
May '20 2024 - Current

Grupo Humano, Santo Domingo, DR.

Design and develop integration solutions based on SOA. Responsible for creating microservices and implementing SOAP and REST web services. Ensure efficient system communication and collaborate with cross-functional teams to meet business and technical requirements.

Backend Developer (.NET) - Contractor
Jun' 01 2024 to Sep' 30 2024

Malla Agency, Santo Domingo, DR.

As a Backend Developer for INDOTEL, I developed the Oficina Virtual (Virtual Office) using .NET 8, implementing Swagger for API documentation and applying the CQRS pattern within a Clean Architecture framework. I also conducted unit testing to ensure code quality and maintainability, focusing on building a scalable and robust backend solution.

.Net Developer (Umbraco) - Contractor
Oct' 01 2023 to Mar' 01 2024

Malla Agency, Santo Domingo, DR.

As a .NET Developer, I worked on a migration project from .NET 7 to Umbraco 12 for the DGA in the Dominican Republic. The project included certifying the portal under NORTIC standards, which are required for government websites in the DR. I was responsible for the entire development lifecycle, utilizing technologies like Azure, .NET 7, Umbraco 12, and RestAPI, ensuring efficient integration.

Backend .Net Developer FullTime

Apr'01 2023 to May'17 2024

Solvex Dominicana, Santo Domingo, DR.

As an AI .Net Developer, I spearheaded the automation of processes utilizing Azure Cognitive Services. In close collaboration with data engineers, I facilitated the creation of innovative implementations and improvements, both internally and for prospective clients.

Web Development Team Lead FullTime

Nov '01 2021 to Apr'01 2023

Solvex Dominicana, Santo Domingo, DR.

Led a cross-functional team of developers and a UX designer in delivering nine simultaneous web projects for major clients including AFP Siembra and ACAP. Oversaw the full project lifecycle, from planning to deployment, using SCRUM and Azure DevOps. Managed proposal estimation and client presentations, while ensuring compliance with security, performance, and SEO standards using tools like WhiteSource Bolt and SonarQube. Also developed APIs to automate key processes across client platforms.

.Net Developer FullTime

Nov '01 2019 to Nov '01 2021

Solvex Dominicana, Santo Domingo, DR.

Developed, maintained, and deployed Umbraco-based websites for key governmental clients like DIGEPI and provided ongoing support for national and international platforms including NavegaRD, EDESUR, and AlphaSecurities (Panama). Delivered in-person technical and administrative training to end users, collaborated on project documentation, and offered expert support in .NET development and Umbraco CMS.
